emarsys is one of the leading global providers of email marketing solutions and services. More than 1000 satisfied clients, among them eBay, Swiss Airlines, Siemens, XXXLutz, Zalando-Lounge, Canon, Hervis and Burton, send over 5 billion emails every month with emarsys technology.

As part of the company's continuous expansion we are looking for employees who support us in our period of growth and actively participate in shaping our path to the future.

Join us for your next career move!

Software Developer eMarketing Suite m/f

Your area of responsibilities:
- Design and develop emarsys eMarketing Suite
- You are working as a member of a software team using eXtreme Programming methodology, allowing you to contribute to the design and development of our software

Required skills:
- Object-oriented thinking
- SQL
- Technical English

Desired skills:
- TDD experience
- Having worked with Agile methodologies
- Design patterns
- Linux
- PHP or Ruby
- JavaScript

Our offer:
- Software development in a young and dynamic team with state of the art tools and methodologies
- The software you develop reaches billions of users each month
- The opportunity to scale an extremely large relational database

At emarsys, you will find interesting challenges, a dynamic, international team and a good working environment.
